Jetbroach Cutters

Nitto Kohki's Jetbroach cutters are designed for faster and improved hole results. Featuring tungsten carbide tips (TCT), they can be run at higher feeds and speeds to produce excellent quality and accuracy of holes.

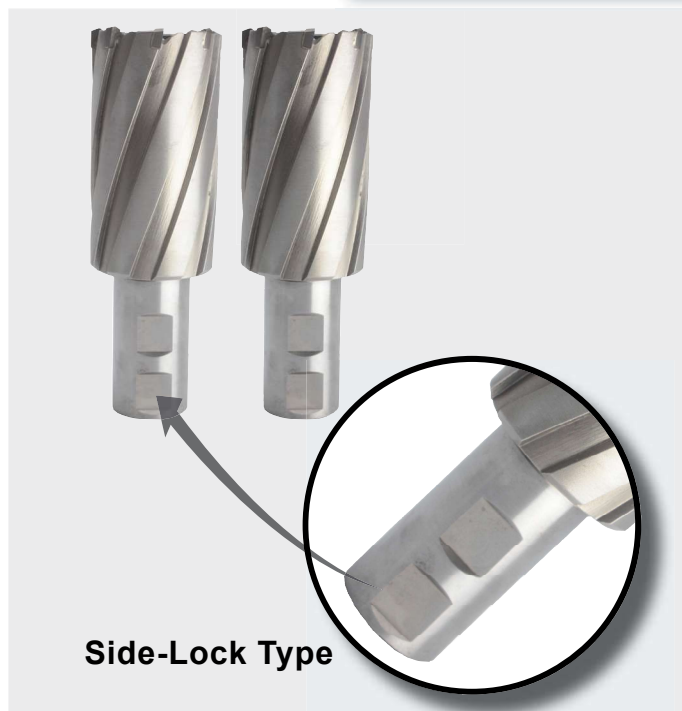

Superior cutting time and life when compared with our High Speed Steel cutters and are suitable for mild steel, cast iron, brass and aluminium drilling applications.

75mm Depth - 1 1/4" Shank 'Side-Lock'
