

## ANTI-VIBRATION WHIP HOSES

PLUG SET WITH HOSE FOR VIBRATING AND IMPACT TOOLS

### WHIP HOSE FOR VIBRATING AND PERCUSSION AIR TOOLS

#### PROTECTS CUPLA FROM SHOCKS GENERATED BY VIBRATING TOOLS AND IMPACT TOOLS

These Whip Hoses optimize the life and prevents wear of Cupla by absorbing strong shocks generated by connected vibrating tools. Preventing hard-to-notice flow reduction caused by Cupla wear under continuous vibration. The flexible rubber hose allows free and wide range of tool motion.

#### APPLICATIONS

Suitable for air tools such as impact wrenches used in car maintenance or metalworking industries, chippers, needles guns or concrete breakers in the construction industry, that commonly cause incessant vibrations.

## SPIRAL HOSE ASSEMBLIES

POLYURETHANE HOSE COMBINATIONS

### SPIRAL HOSE

#### FEATURES

- Small coil diameter stops tangling
- No air leaks
- Straight end sections eliminates hose splitting
- Excellent memory and stores neatly
- Oil resistant

#### AVAILABLE WITH 3 DIFFERENT FITTING OPTIONS:

**COMB B** ~ Fitted with 200 Series 'One-Touch' Nut Cupla

**COMB D** ~ Fitted with Plastic Cuplas

**COMB F** ~ Fitted with Threaded Brass Fittings
